Written Comments

1) What were some of the positive aspects of the way this course was taught? Please be specific and constructive.

The projects were well thought out and fun to do.

2) What suggestions do you have for improving the way this course was taught? Please be specific and constructive.

Even if we've been through how to do something once, its probably safe to assume we need to go through it again.

3) Additional comments and/or clarification of previous ratings.

Nah, you were pretty awesome.

Written Comments

1) **What were some of the positive aspects of the way this course was taught? Please be specific and constructive.**

Blake Really challenges his students to fit the client's needs and get out of the mindset of creating things for ourself. This is smart because it's implementing marketing into graphic design.

2) **What suggestions do you have for improving the way this course was taught? Please be specific and constructive.**

I felt like sometimes we were too limited on our options. Being limited to certain programs when other programs perform the same function much easier is frustrating.

3) **Additional comments and/or clarification of previous ratings.**

Before the class, I think I was a 4 on a scale of 1-10 on how well I knew type. Now, I'm a complete type snob, officianato, connesseur... etc.

Good examples! I love seeing booklets with good typography

2) **What suggestions do you have for improving the way this course was taught? Please be specific and constructive.**

Less "Web" more time for print assignments

I was @ about a 7 before this class. I love learning about type and can always point out bad type errors.

1) What were some of the positive aspects of the way this course was taught? Please be specific and constructive.

Blake knows alot about type and is easy to talk to which helps when the class has questions. He also pushes his students to do their best and go beyond.

2) What suggestions do you have for improving the way this course was taught? Please be specific and constructive.

Perhaps a more detailed explanation on what we did wrong on each project and how to improve.

3) Additional comments and/or clarification of previous ratings.

Written Comments

1) **What were some of the positive aspects of the way this course was taught? Please be specific and constructive.**

It was helpful that Blake individually helped the students and gave useful suggestions & feedback.

2) **What suggestions do you have for improving the way this course was taught? Please be specific and constructive.**

More lessons about what makes a good design would be helpful. Suggestions about how to be creative and think outside of the box would be great.

3) **Additional comments and/or clarification of previous ratings.**

I loved How He interacted with us and not just sat down or talk the entire time

If we didn't know How to do something He would teach one of us, figure someone else would Have same question and tell the rest of class

2) What suggestions do you have for improving the way this course was taught? Please be specific and constructive.

none

3) Additional comments and/or clarification of previous ratings.

3) **Additional comments and/or clarification of previous ratings.**

I would say that I had a 6/10 knowledge before this class. I now feel pretty confident in Type and would rate 9/10 with knowledge. Blake really stressed the importance of Type and gave constructive critiques.

I knew better than to leave the learning objectives at default, but the finer things (the bullet points, for example) I didn't even think about.

A bit of a type check now!
